About Us

Gulmer Marble works in the field of Trading , Quarry and Factory

❖ Trading

Gulmer Marble started Marble business in 2006 as an Trading Company and started sell rough blocks from different quarries of Turkey to different Countries.

Now Gulmer Marble is one of the biggest and reliable block supplier of Turkey.

Our aim is to offer high quality marbles with competitive prices. We have experienced inspectors who always search new types of marbles which are suitable for the market.

We can offer many colors from our Own quarries and all other wellknown quarries from Turkey.

❖ Quarry

In 2010 our company started to invest in his own quarries and opened the quarry in Adiyaman for Dark Emperador.

In 2011 we opened our second quarry in Burdur for famous Burdur beige marble.

Our target is to find the right sources for our clients according to their demand.

❖ Factory

With the investment decision taken in 2015, our modern marble factory, was built on an area of 25.000 m² and 8.500 m² of covered area and was completed in 2017, which is equipped with modern Italian technology includes Simec and Promotech machines.

Gulmer produces marble in the form of blocks, slabs and cut-to-size products and exports around the world, including North America, Europe, Central Asia and the Far East.

We always try our best to do more than expected and to be one step further.. We invite you to explore the natural beauties with Gulmer marble...
